

UNDER THE RIVER.

Laying a Submarine Cable in the Mississippi.

MEMPHIS, Tenn., Sept. 16.—A submarine telegraphic cable for the Kansas City, Springfield and Memphis railroad has been successfully laid across the river from a point near the old gas works, Fort Pickering, to the opposite shore. The cable is an inch and a half in diameter and 4,000 feet long, and of the kind used to cross oceans with. The river at the point where the cable crosses is not more than 3,300 feet wide, but it is intended that it shall run underground several hundred yards on the other side in the woods beyond the shore. From each side of the cable three lines of wire will be used for message work. The tug O'Neill, of C. B. Bryan & Co.'s fleet, was used to lay the cable, and the job was done in about ten minutes, under the supervision of Mr. Palmer, of Louisville, who came here to supervise the work.

THE LUMBER MARKET.

Reports of Heavy Advance in Prices.

OTTAWA, Ont., Sept. 16.—The sawed lumber market has taken a decided change for the better within the past few days. Several prominent New York dealers have been in the city, and their purchases are said to have aggregated 8,000,000 feet, principally higher grades. An advance of twenty-five cent per 1,000 feet is quoted on these qualities. This has given an impetus to shipping, and the lumber docks have resumed their usual bustle. Freight rates average about the same as last year. The activity of the market does not interfere with the determination of mill men to curtail operations the coming winter.

Severe on Detectives.

Boston, September 16.—Detectives and spies got a stinging blow from the bench. In instructing the jury in the revenue cases in the United States District Court, Judge Nelson said that in that class of cases, where the evidence of the Government depends upon the unsupported evidence of a detective or spy, the jury would not be warranted in finding an indictment against the accused, and that while such evidence was entitled to some weight it should be examined with the closest scrutiny.

Distributing the New Stamps.

WASHINGTON, Sept. 16.—The Postoffice department has begun distribution of the new two-cent stamps and the requisition on the contractors was the largest in the number of pieces and value ever issued in one day. The order was for 37,879,830 postage stamps, 7,131,950 stamped envelopes (most of these being of the two-cent denomination), and 5,983,000 postal cards. The aggregate value of the articles ordered were \$950,000.

The Fatal Elevator.

CHICAGO, Sept. 16.—The freight elevator in the Boston store fell from the third floor. The elevator boy jumped through a doorway in time to save himself, but two clerks, Charles Grasshoover and Herman Albert, went to the bottom with it, and both were seriously hurt, the latter probably fatally.

CONDENSED NEWS.

At Havana eighteen deaths from yellow fever occurred during the week just closed.

Leland Stanford has put through the New Hampshire Legislature a bill to incorporate the Southern Pacific company.

Flames destroyed Cotachy castle, near Fortar, Scotland, owned by the Earl of Airlie, valued at \$200,000.

A contract has been let for a drainage canal through Mason and Tazewell counties, Illinois, to cost \$200,000.

At Hartford, Dakota, while descending a flight of stairs in his house, Herman Diver and a child were killed by lightning.

At the fair at Rockford, Ill., a wild buffalo escaped from the amphitheater by leaping a fence, and rushed about among the assembled thousands for some time.

The blunder of a train-despatcher on the Hannibal and St. Joe road caused a collision near Kansas City. No details can be obtained, but it is reported that several train men were injured or killed.

Former officers and soldiers of the First corps of the Army of the Potomac, including Generals Rosecrans and Fairchild, are arranging for an excursion next month to the battle-fields of Bull Run and Antietam.

Before the recent storm the United States Government had sixty acres of sorghum cane, which promised nicely. Fifty acres of it has been flattened to a degree which ruined it. The remainder is being cut and ground.

A license to organize has been issued at Springfield to the Chicago Central Elevated Railroad Company, with a capital of \$6,000,000, the incorporators being William D. Scott, Charles M. Clark, and James Sweeney.

The session of the New York Legislature, which closed Saturday morning, was the longest ever held in that State; the members will each receive 102 days' pay. It will require upward of \$100,000 to settle their per diem.

The police of New York City are notified to look for Abram S. Nesbit, the sixteen year old son of the president of the Second National Bank of Easton, Pa., who ran away from home, and is supposed to have come there. He is said to be heir to \$500,000.

Sexton, the billiardist, denounces as cowardly the challenge issued by Slosson to Schaefer on the eve of the latter's departure for France. Sexton holds an emblem, and appears to be only too anxious to give Slosson an opportunity to win it. Vignaux has challenged Schaefer to play for the balk-line championship of the world, 800 points, and \$500 a side.

Richard Michaelis, of Chicago, says his offer of \$10,000 for the judgment against A. C. Hering is still open, and he thinks it is the duty of the government to file a creditor's bill. Mr. Hering declares that no one will ever collect a cent from him if his offer to the Government be rejected, and says President Arthur assured him that the judgment should not be sold.

Judge Wheeler, of the United States Court at St. Albans, Vt., rendered a decision in the case of Roland G. Hazard vs. The American Loan and Trust Company, restraining the latter from issuing bonds of the Consolidated Street Railroad Company of Vermont, in exchange for stock of the Vermont & Canada Company. Wheeler denies the motion for an injunction.

VENOMOUS REPTILES.

Interesting Experiments by a Brazilian Scientist.

WASHINGTON, D. C., Sept. 16.—The Smithsonian Institution received a communication from Prof. Lacerda, of Brazil, who has been conducting a series of experiments with a view to obtaining an antidote for the bite of venomous reptiles. As demonstrated by the Professor's experiment upon a native who had been bitten by a cobra, he recommends a hypodermic injection of a solution of permanganate of potash. For his services in this connection the Emperor of Brazil has conferred upon Prof. Lacerda gratuities amounting to \$20,000.

DEADLY BEEF.

A Family Poisoned by the Canned Article.

PITTSBURGH, Sept. 16.—Richard Brown, wife, and five children, while at supper, ate heartily of canned corn beef, and about an hour later all were attacked with violent pains in the stomach, accompanied by vomiting. A physician was called in who pronounced the symptoms those of poisoning. Wesley Brown, aged twelve, grew rapidly worse and died. The other members of the family are still in a serious condition, but it is thought they will recover. The coroner held an inquest.

A Vinegar Tax.

WASHINGTON, Sept. 16.—The Commissioner of Internal Revenue has sent notification to a number of leading firms of the United States interested in the manufacture of vinegar, to present their reasons for asking that this article shall be allowed to be distilled at 25 proof, instead of 20, as at present. Ample time will be given all concerned to give their views on this subject, and the indications are that favorable action will be taken if good reasons are advanced in support of the proposition.

Precautions for O'Donnell.

LONDON, Sept. 15.—It is probable the police will board the steamer Athenian upon her arrival off the Southampton to take O'Donnell, the murderer of James Carey, ashore and bring him secretly to London, in order to avoid any public demonstration by sympathizers.

BUSINESS HOUSES.
